

Swim Bottom

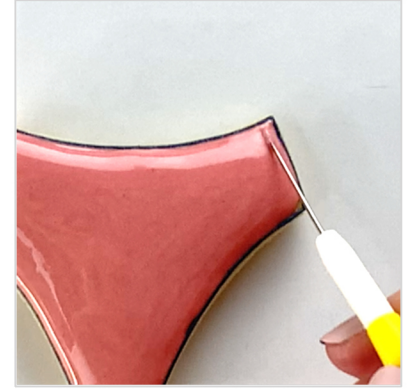

Navy PIPING

1. Outline the edge of the cookie.

Pink FLOOD

2. Fill in the area you just outlined, being careful not to pipe on top of your outline. You want the outline to remain visible.

Scribe Tool

3. Use your scribe tool to gently push your icing toward the edges until it makes contact with the outline.

4. Allow your cookie to dry for at least 3-4 hours or ~20 minutes in a dehydrator.

Navy PIPING

5. Pipe two lines, each parallel to its closest cookie edge. If needed, clean up the ends of each line with your scribe.
